## Notes:

- Inspection should be done before casting of slab at each stage i.e. when the slab is ready for casting. Prepare Slab Dimensions Check Plan as follows:

- Show outer dimensions of slab. (Tolerance 2")
  Show length and width of balconies (Tolerance 1")
  Show inner dimensions of ducts. (Tolerance 1")
- Show location of sunken slab.
- Print an A3 size plan.
- Mid landing height is no. of risers x riser height. Measure from SFL to SFL. Check staircase of lower floor that has been casted. Circle each correct dimension with red colour and mention actual dimension.

Within tolerance of 1/4"? Yes No	1	Actual:	Ì	Specified:	Staircase slab thickness

## Slab Steel check. Notes:

- Mark v for correct or minor mistake which does not require correction
   Mark X for minor mistake that requires minor correction.
   Mark XX for major mistake that requires correction by replacement or re-fixing.
   Mark XX X for major mistake that cannot be corrected.
   Columns overlapping length should be 45 to 50 D.
