Columns Position Check	or work. With not redui	red.			
Notes					

- Inspection should be done after casting of columns at each stage and before starting centering works for each slab.
- Prepare Columns Position Check Plan as follows:
- Divide blocks into smaller sub-blocks.
- Show size and orientation of columns. (Tolerance 0.5")
- Show inner inner space between columns. (Tolerance 1") Show diagonals for 20% of bays. (Tolerance 1.5")
- Print an A3 size plan.
- Columns Position Check Plan enclosed? Circle each correct dimension with green colour. Circle each incorrect dimension with red colour and mention actual dimension next to it. Yes No

## Slab Dimensions Check. Notes:

- Prepare Slab (or plinth beams) Dimensions Check Plan as follows:
- Show length and width of balconies (Tolerance 1") Show outer dimensions of slab. (Tolerance 2")
- Show inner dimensions of ducts and lift well. (Tolerance 1")
- Show location of sunken slab.
- Print an A3 size plan.
- Circle each correct dimension with green colour. Circle each inco

the state of the s

## Quality Control Check Repot. Stage: After Column Casting (villas)

Columns height, plumb, steel & level marking check.

- Mark v for correct or minor mistake which does not require correction
   Mark x for minor mistake that requires minor correction.
   Mark x for major mistake that requires correction by replacement or re-fixing.
   Mark x x for major mistake that cannot be corrected.
   Tolerance: Plumb 0.25".

Circle actual height of columns if level differs from specified height by more than 1".
