ATR not required.	

- after cleaning the apartment.
- before starting painting, tiling & flooring.
- electrical conduct, waterproofing & plumbing work is completed (for stage II only).
- additions & alterations is finalized and signed. In case there are no additions and alterations printout of email by PM to CR confirming the same must be
- additions & alterations sheets to be transferred to QC file. QC to check if A&A are made as per request.

After Plumbing & Electrical Check.

- Mark ✓ for correct or minor mistake which does not require correction
- Mark X for minor mistake that requires minor correction.
- Mark XX for major mistake that requires correction by replacement or re-fixing
- Mark XXX for major mistake that cannot be corrected.
- Location of CPVC & PVC fittings must be checked as per measurements given in circular. Tolerance 1".
- Location, height and spirit level of electrical points must be checked as per measurements given in circular & plan. Tolerance 1".
- Civil work near pipes in balcony & utility must be neat and mortar should be removed from the pipes.
- Water proofing must cover all pipes & check height above SFL
- Fasteners must be used as specified in circular. Especially check fixing of PVC pipes. Height of DB box must be 6" below false ceiling level or 12" below slab level.
- In case of many changes in civil work, electrical work and plumbing work, a new drawing must be prepared at HO and approved by MD.
