## Slab Check. Notes:

- Inspection should be done before easting of slab at each stage i.e. when the slab is ready for easting.
   Prepare Slab Dimensions Check Plan as follows:
   Show outer dimensions of slab. (Tolerance 2")

- Show length and width of balconies (Tolerance 1") Show inner dimensions of ducts. (Tolerance 1") Show location of sunken slab.
- Print an A3 size plan.
- Mid landing height is no. of risers x riser height. Measure from SFL to SFL. Check staircase of lower floor that has been casted. Circle each correct dimension with green colour. Circle each incorrect dimension with red colour and mention actual dimension next to it.

## Slab Steel check. Notes:

- Mark v for correct or minor mistake which does not require correction
   Mark X for minor mistake that requires minor correction.
   Mark X for major mistake that requires correction by replacement or re-fixing.
   Mark X X for major mistake that cannot be corrected.
   Columns overlapping length should be 45 to 50 D.
