c) Nature of Construction	High Rise Building Permission for Residential Multistoreyed Apartment Building for Cellar + Stilt + 8 Upper floors & Club house.		

3. The apartment building plans are hereby technically approved under section - 18, 19 & 20 of the HMDA Act, 2008 and forwarded to you for necessary sanction and release and ensuring compliance of the following conditions, while party undertakes the above proposed Permission for Residential Multistoreyed Apartment Building for Cellar + Stilt + 8 Upper floors viz.,

- a) The building plans shall be sanctioned by the Local Authority in conformity with the technically approved plans by HMDA.
- b) The Local Authority shall scrupulously follow the instructions of the Govt. issued Memo.No.1933/I1/97-1 M.A., dated 18-6-97 i.e., ensure the ownership and ceiling clearance aspect of the site under reference are in order before sanctioning and releasing the technically approved building plans.
- c) The apartment building plans is valid for a period of 3 years from the date of issue of this letter provided the construction work is commenced within one year from the date of issue of this letter.
- d) With regard to water supply, drainage and sewerage disposal system to be provided / facilitated to the proposed building, the Municipal Engineer / Executive Authority shall ensure the following.

- (i) The location of water supply source & sewerage disposal source are located at appropriate distance within the site preferably at 100 feet distance so as to avoid contamination.
 - (ii) The depth of the bore and sizes shall be limited to the minimum depth and size of existing nearby bore-well. Water shall be disinfected by adding hypo-solution to maintain 0.3 to 0.4 p.m of residual chlorine in the sump / overhead tanks.
 - (iii) Where main Gram Panchayat drains exist in vicinity of site, insist on connecting the treated sewerage to main existing drain by laying a sewer pipe of diameter ranging from 200mm. To 300mm.
 - (iv) In case where such Gram Panchayat drain exist, insist on connecting the treated sewerage overflow to a natural drain or nala with a sewer pipe of diameter 150mm.
 - (v) Before allowing the overflow mentioned in (iii) & (iv) above ensure the sewerage of the proposed building is invariably 1st into a common septic tank constructed on as per ISI standard specification (ISI) Code No.2470 of 1985 (Annexure - I) and constructed with a fixed contact bed, duly covered and ventilated for primary treatment. The Executive Authority shall ensure that no effluent / drainage over flows on the road or public place.
 - (vi) To prevent chokage of sewers / drains, the last inspection chamber within the site / premises shall be provided with safety pads / gates. So as to avoid chokage of sewers / drains.
 - (vii) The party / applicant should clean that septic tank periodically by themselves, and cart way the sludge, etc., to an unobjectionable place.
 - (viii) All the above shall be supervised and inspected by the Executive Authority concerned for compliance during the construction stage.
 - (ix) Since eventually the public sewerage and water supply systems are expected to be systematically added / extended by the Hyderabad Metropolitan Water Supply & Sewerage Board to the outlaying areas of Hyderabad, the proposed building owners shall pay proportionate pro-rata charges to Hyderabad Metropolitan Water Supply & Sewerage board for the above facilities as and when demanded by the Hyderabad Water Supply & Sewerage Board.
- (e) The Executive Authority should ensure that the proposed building / complex is constructed strictly as per the technically approved building plans mandatory inspection shall be made at foundation stage, plinth level and first floor and subsequent floor level as required under G.O.Ms.No.168 MA, dt.07-04-2012. No deviation, misuse or violations of minimum setbacks, common parking floor / stilt parking / violation and other balcony projections shall not be allowed.

- (f) The Executive Authority shall ensure that all fire safety Requirements are complied in accordance with the National Building Code, 2005.
- (g) The Executive Authority shall ensure that the owner / applicant, plant trees and maintain them in the periphery of his site and along the abutting roads, as avenue plantation to the extent of his site at a distance of 4 meters between each tree.
- (h) The Executive Authority shall allow the proposed building complex to be occupied used or otherwise let out etc., only after;
 - (i) The proposed building is completed in accordance with the technically approved building plans;
 - (ii) After ensuring all the above conditions at (a) to (h) are complied.
 - (iii) After ensuring the conditions with regard to water supply and sewerage disposal system as mentioned in (d) above are complied to the satisfaction of the Executive Authority.
 - (iv) After issuing a "Fit for Occupancy" certificate by the Executive Authority as required as required under Government order No.248 MA, dt.23-05-1996 conditions laid as per G.O.Ms.No.168 MA, dt.07-04-2012.
- (i) The Executive Authority shall ensure that the developer display a board at a prominent place at the site which shall show the plan and specify the conditions mentioned in this office letter, so as to facilitate public in the matter.
- (j) The owner / applicant and licensed structural engineer are responsible for structural safety and the safety requirement in accordance with the of National Building Code of 2005.
- (k) The applicant shall develop Rain Water harvesting structures in the site under reference.
- (l) That the applicant should erect temporary shed to avoid spilling of materials outside the plot during construction to stop environmental pollution to ensure safety and security of the pedestrians and neighbours.
- (m) That the applicant shall make provisions for erection of Transformer and Garbage house with in the premises.
- (n) That the applicant / builder / contractor / developer shall not keep their construction materials / debris on public road.
- (o) That the stilt / Cellar should be exclusively used for parking of vehicles without any partition walls and Rolling shutters and the same should not be converted to any other use.
- (p) That the construction should be made strictly in accordance with this sanctioned plan. If any modifications are made necessary prior approval should be obtained from HMDA.

- (q) This permission does not bar any public agency including HMDA to acquire the lands for public purpose as per law.

ADDITIONAL CONDITIONS:

- a) The Owner / Developers shall ensure the safety of construction workers.
- b) The Owner / Developers shall ensure a comprehensive insurance policy of construction workers for the duration of construction.
- c) In large projects where it is proposed to temporarily house the construction workers on the site, proper hygienic temporary shelter with drinking water and sanitary measures shall be provided.
- d) The Owner / Developers shall be responsible for the safety of construction workers.
- e) If in case above said conditions are not adhered; HMDA / Local Authority can withdraw the said permission.
