-- o0o --

ORDER:

In the G.O. 1st read above, orders were issued prohibiting various developments within 10 K.Ms. radius of Himayatsagar and Osmansagar lake areas which are main sources of drinking water supply for Hyderabad, and Secunderabad, basing on the interim report of the Expert Committee constituted by Hyderabad Metropolitan Water Supply and Sewerage Board to suggest ways and means of monitor the quality of water in these reservoirs.

2. In the D.O.Letter 6th read above, the Managing Director, Hyderabad Metropolitan Water Supply and Sewerage Board has furnished second interim report of the Committee prepared after detailed discussions and field visit to Osmansagar pipelines, making certain recommendations for the protection of the lakes.

3. Government after careful examination of the recommendations of the Committee, have decided to issue the following orders in modification of the earlier orders issued in G.O.Ms.No.192 M.A., dated 31.03.1994:-

- (i) To prohibit polluting industries, major hotels, residential colonies, or other establishments that generate pollution in the catchment of the lakes upto 10 K.Ms. from full tank level of the lakes as per list as Annexure-I.

However, residential developments in residential use zone may be permitted.

The following measure shall be taken to protect water flowing into the lakes:-

- (a) 60% of the total area shall be kept as open space and roads in all layouts in the villages of catchment area;
- (b) The land use of about 90% of the area in classified as recreational and conservation use in Master Plan. The Hyderabad Urban Development Authority should take action for the classification of this 90% of the area as agriculture, which is inclusive of horticulture and floriculture.
- (c) To restrict the F.S.I. to 1:0.5 in the catchment area. This measure will ensure that 90% of the area remains under agriculture as is the practice now and ensure protection of the lakes.
- (d) To monitor periodically the level of different pesticides, fertilizer residues carried into the lakes. The Hyderabad Metropolitan Water Supply and Sewerage Board shall conduct such studies through JNTU / Central University or any other reputed agency at regular intervals and review the results once in 6 months.
- (e) To prohibit polluting industries within 10 KMs radius (i.e., both on upstream and downstream side of the lakes) to prevent acidification of lakes due to air pollution.

- (f) There shall be total prohibiting of location of industries in the prohibiting zone.
- (g) Andhra Pradesh Pollution Control Board shall make further study of the existing industries in the upstream and downstream of the lakes and take action under their Act.
- (ii) For the protection of raw water channel from Osmansagar to Asifnagar no layout or building permission should be granted by Municipal Corporation of Hyderabad / Hyderabad Urban Development Authority / Director of Town and Country Planning up to a maximum of 100 feet from the conduit site boundary. While approving layouts along the conduit, a maximum of 9 Meters wide road plus green belt to a maximum width of 100 feet should be insisted to act as buffer on either side of conduit and the green belt shall be accounted as part of mandatory open space to be left in the layout. Drainage pipelines must be laid parallel to the conduit and no sewerage / sullage water discharge shall not be allowed from the layouts towards the conduit.
- (iii) Orders issued in G.O.Ms.No.50 M.A., dated 18.01.1989 shall be effectively implemented by concerned departments i.e.,
- (1) Zilla Parishads, Ranga Reddy, Mahabunagar and Medak Districts;
 - (2) Panchayat Raj Departments;
 - (3) Irrigation Department;
 - (4) Social Welfare Department are directed not to taken up any building works / check dams / list irrigation works / storage reservoirs across vagus flowing in the catchment areas.

(BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA PRADESH)
