The decision to give a loan and the interest rate applicable to each loan account is assessed on a case to case basis, based on multiple parameters such as the type of asset being financed, borrower profile and repayment capacity, borrower's other financial commitments, past repayment track record if any, the security for the loan as represented by the underlying assets, loan to value ratio, mode of payment, tenure of the loan, geography (location) of the borrower, end-use of the asset, etc. Such information is collated based on borrower inputs and field inspection by the company officials.

This offer is subject to the detailed terms and conditions mentioned in the standard loan agreement to be executed. The final approval of loan will be at the sole discretion of the Mahindra Finance Management.
