Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a screen displaying a target (a red dot) and a starting point (a green dot). The subject's hand is positioned at the starting point, and the target is located at a distance of 10 cm from the starting point. The subject is instructed to move the hand to the target as quickly and accurately as possible. The screen is positioned at a distance of 40 cm from the subject's eyes. The starting point is marked by a green dot, and the target is marked by a red dot. The distance between the starting point and the target is 10 cm. The subject's hand is positioned at the starting point, and the target is located at a distance of 10 cm from the starting point. The screen is positioned at a distance of 40 cm from the subject's eyes. The starting point is marked by a green dot, and the target is marked by a red dot. The distance between the starting point and the target is 10 cm.
