The unit will either be repaired or replaced free of cost provided, the unit is returned at your cost to our factory or to our dealer along with signed & stamped Cash Memo & Guarantee card.
The unit is installed, used & maintained strictly in according with instructions provided.
The unit is not opened or tampered with any body except our authorised dealer or our authorised mechanic.

Important Instruction for Proton Pump

1) Monoblock should not run empty 2) Run the pump sets 2-3 minutes daily if not in regular use. 3) Use good quality foot valve for self priming pump also to prevent damage to impeller & motor by entry of Foreign particles. 4) Connection is properly made & earth terminal is properly earthed. 5) There should be minimum bends in suction lift. 6) All joints to be properly tight & make sure that there is no air leakage from any Joint. 7) Clear the footvalve strainer if discharge is redces after few months. 8) If pump is idle for long time & monoblock gets jammed then remove fan cover & rotate fan by hand. 9) If the self priming pump is to be installed peermanently then you have to fill prime up to 2.5 mts. suction lift without Foot-Valve. If water is clear, cold & damage to impeller by entry of Foreign particles.

Important Instruction for PROTON INDUCTION MOTOR

1) Ensure Motor is Properly Selected for the application to be used. 2) Connection is to be done properly by Electrician. 3) Guarantee does not Cover Electrical & Burnt due to Over load.

PRODUCTS DOES NOT COVER ELECTRICAL GUARANTEE
