RECORD OF PERSONAL HEARING

Sh. Sudhir V.S., CA appeared before me for PH. He reiterated the submissions made in their SCR. He drew attention to the assurance to the where S. Tap is computed on both CCS and WC services for the same period and stated that the same is not tenable in law. He stated that after the order no. 108 was issued in Jan'2009, they wrote to the dept. w.r.t variable or otherwise of S. Tap on residential units and hence argued that dept. was well aware of their client's intention and hence intent to evade payment of S. Tap would not arise as the facts were already known to the department.
