A warning to the potential investors in this property. BEWARE! Modi properties Ltd makes false promises during booking. After booking they start playing with customers sentiments and money. The construction quality is not good, the project management team on-site is unskilled. The prime motive of the builder is to save money and compromise on the quality of the building materials.

Expect severe delays in possession as the builder saves money again in deploying limited labour.

If you want peace of mind and true value for money, Invest elsewhere but not here.

Worst project team, very poor materials in constructions, no supervision, no planning and designs, nothing good except marketing gimmicks. Minimum 2 years delay. Workers and contractors are not paid by builders. So no progress in works.
