Illustration of a potential interest rate reset implication on Loan Structure

Illustration on how a change in interest rate (reset of interest rate) may impact the loan structure (EMI/Tenure/Both)

Loan Details:

- Loan Amount: ₹1,00,00,000
- Interest rate: 12.00% p.a.
- Tenure: 15 Years (180) months
- Monthly EMI: ₹1,20,017

Subsequently, assuming if there is an increase in reference rate by 0.25 percent the revised interest rate for above loan account will be 12.25% p.a. With increase in interest rate, the consequent impact on loan is explained through following scenario:

- Scenario 1 – Increase in Tenor with no change in EMI amount
- Scenario 2 – Increase in EMI amount with no change in Tenor
- EMI amount of loan will be increased by ₹4239 from ₹1,20,017 to ₹1,24,256.
- Scenario 3 – Adjustment in both Tenor and EMI
- Assuming if a borrower request to adjust both EMI and Tenor, with increase in EMI amount by ₹2119, then the Tenor of loan will be increased from 180 months to 183 months. With this, the revised EMI amount and Tenor of loan would be ₹1,22,136 & 183 months, respectively.
- Scenario 4 – Prepay part of the loan to uphold the existing EMI and Tenor
- The borrower can prepay ₹2,90,340 as part payment to maintain the existing EMI and Tenor. The tenor and EMI would remain unchanged at 180 months and ₹1,20,017 respectively.

Notes:

- In case of change in interest rate, by default the primary impact would be on the loan tenure. However, the customer can place request for making adjustment to the EMI/Tenure/Both. Additionally, the borrower can choose to prepay the loan amount (partial/full).
- Please note that the figures provided above are for illustrative purposes only, and the actual impact on your loan may vary based on the terms and conditions outlined in your loan agreement.

IMPORTANCE OF FOLLOWING REPAYMENT SCHEDULE

The repayment schedule/payment advice that you receive while taking a loan from ABFL is a document that helps you to know the dates when you are required to pay interest, principal and other charges if any, to ABFL for the loan availed and helps you to manage your loan account efficiently and meet the obligations in a timely manner.

Here's what happens to your loan account if you miss paying your dues on time.

Basis the number of days your dues (dues means instalment of principal, interest and other charges if any) remain unpaid and overdue, your loan account gets classified into various categories. These categories influence your Credit Bureau Score, which may further affect your borrowing capacity in future.

Example

Suppose Mr Sanjay has taken a loan of Rs.10 lakhs for 36 months and the due date to pay is 5th of every month and say his next due date for payment is April 05, 2021.

EXAMPLE

The above illustration is also applicable for revolving facilities where either outstanding balance remains continuously in excess of the sanctioned limit /drawing power whichever is less or interest is overdue and not paid on due dates.
