

About Us

Accelerating Enterprise Digital Transformation Through Platformation™, Sonata's unique approach to Digital

Overview

In today's rapidly changing world, the modernization of technology and business processes is no longer a luxury but a necessity for organizations that aspire to stay competitive.

Sonata is a leading Modernization Engineering company, powered by its unique Platformation™ framework that brings together industry expertise, platform technology excellence, design innovation, and strategic engagement models to deliver sustained value to customers.

We partner with Fortune 500 clients to help them reimagine their business processes as part of modernization programs. As part of this phase, we drive business enablement sessions, consulting, and business processes to be aligned with best-in-class industry-specific practices.
