Subject: Action against Mr. James from 523

Hi Sir,

We have an issue with Mr. James, husband of one of the EC member from flat no. 523. He is false communicating about the management and committee in the WhatsApp group. Please find attached screen shots and we request the management to take immediate action against him. Thank You!

Thanks,
EC members

D623... Tap is not closed I guess... I can hear water going waste... Now I am scared to inform security... He will come close the valve of the whole block and we will not have water... And if I inform narender he will say plumber is not there or I am not here I cannot open the valve and cannot fix it... We have a bunch of fools running our society... Who on informing hundered time that there is problem with the flats where unoccupied flats water keeps going waste states that there is huge consumption and because of which we are unable to provide water... Or says someone is wasting the water on purpose...God help us....

Deepak Ji, please don't mind but there are two factors

1. The water is not available in the stipulated time

I hope we are living in a society not a basti where they get water supply on a timely manner... We have not paid huge amounts for this... And after which we have to pay maintenance even... Great... This kind of basti management I am not paying for... People... if we do not speak today this will continue... I hope we all understand... Already it's posted in Google about our society... After this God knows what will be next...
