Subject: Construction of Security Room Near South Gate

Dear Soham Sir,

There have been complaints from customers regarding movement of labours in stilt floor of A block and damages to cars as well. The recent mail has been attached.

In light of these complaints, we have decided to construct a security room opposite the south gate in C block. The entry/exit of labourers will be regulated as the entry point will be shifted. Moreover barricades have been put up in places stopping the labourers from entering the A block area.

Please find attached the pictures of the barricades near B block and A block lawn area. The construction for the room has commenced and the door frame has been set.

With the new room finished we expect the complaints to come down drastically.

Request for an approval for finishing the construction

Regards,

A Andrews
