Subject: Failure of I.Block lift-reg

Sir,

Vista homes I-block lift was failed today by 9.15am when I was inside. I suffered a lot with high B.P and without air, light and without(airtel and Bsnl) two cell phone signals because of closed doors. Fortunately I could send a message to my wife and was escaped with the help of Mr.Madhu, Project Manager though the lift struck between two floors. Pl. Imagine the situation when the children or old aged persons struck inside the failed lift?

Hence, I request Sri Modi sir, to take immediate action to save the lives of children and old persons residing in vista homes from this type of incidents with the fully closed lifts without proper safety precautions like siran alaram/intercom phone/DG system/grill door system.
The same incidents have occurred in other blocks too frequently which are reported and not yet addressed till now.

Hence, kindly take necessary steps to avoid unforeseen incidents in future.

Thanking you,

With regards,
VMVS SATYANARAYANA
