Subject: I-Block Lift - Reg

Today morning by 9.15 am the co-opted member Satyanarayana was struck-out in I.Block lift for 45 minutes. I feel very inconvenient in the lift without air and lighting. There is no cellphone phone signals inside and no alaram system to call outsiders.

I am very much suffered inside with high B.P. It is very danger with the closed lifts as the children and elders and running in lifts.

ONE SUGGESTION TO PUT CENSOR TO STOP AT CELLAR AND OPEN THE DOORS
WHEN LIFT FAILS./BIG ALARAM SYSTEM/PUT GLASS TO SEE THOUGH OUTSIDERS.

So Please find a solution immediately to avoid unforeseen incidents.

Kind early action solicited.
with regards,
