

SADHRISH

M/S Sadhrish Composites and Allied Products is one of the leading Manufacturers SMC/DMC Moulded Components such as Junction Boxes, Meter Boxes, Distribution Boxes Moulded Service Connection Boards, FRP Cross Arms & Custom made Products.

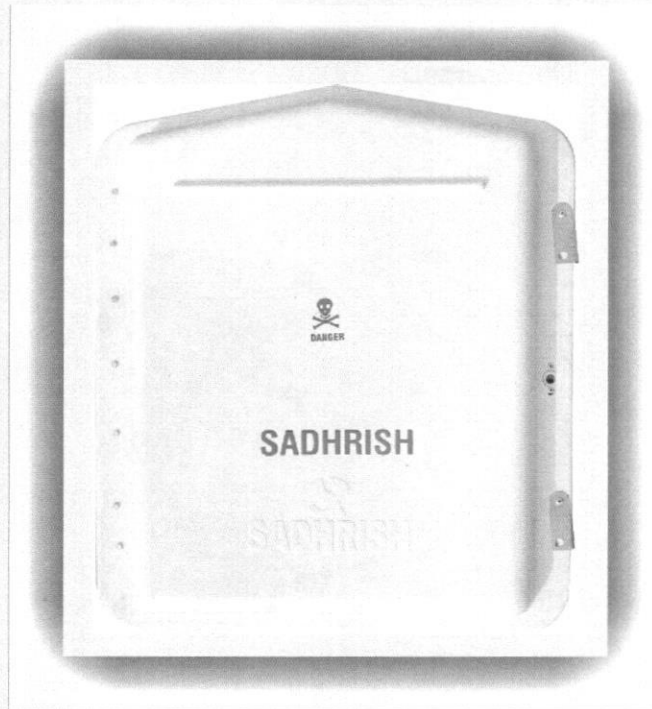

SMC Electrical Junction Boxes

- Weatherproof
- Maintenance-free
- Rustproof / Shockproof
- High heat distortion temperature
- Restricts unauthorized tapping
- Tamper proof
- Termite resistant
- Easy Cable entry from side, bottom & top

Range And Specifications		
Code No	Inside Dimensions	Applications
SRJB-1414	140 x 140 x 95	Junction Box for Single Phase/Three Phase street Lighting/High wattage HPSV/MH Based Lighting
SRJB-2014	200 x 140 x 95	
SRJB-2520	250 x 200 x 105	
SRJB-2817	240 x 130 x 110	
SRJB-3020	300 x 200 x 105 ✓	

SMC Meter Boxes

Range And Specifications		
Code No	Inside Dimensions	Applications
SR MB-2520	250 x 200 x 105	L.T 1 Phase/3 Phase KWH Meters
SR MB-2525	250 x 250 x 155	
SR MB-4030	400 x 300 x 190	
SR MB-4537	450 x 375 x 200	
SR MB-5040	500 x 300 x 230	

- Adequate space for meter and cutouts
- Lightweight, yet strong
- Prices matching conventional meter boxes
- Free from pilferage
- Lower thermal conductivity
- Good adaptability dimensional stability with UV resistance
- Wide range for different applications
- Weatherproof
- Shockproof
- Maintenance-free
- Flexibility in design

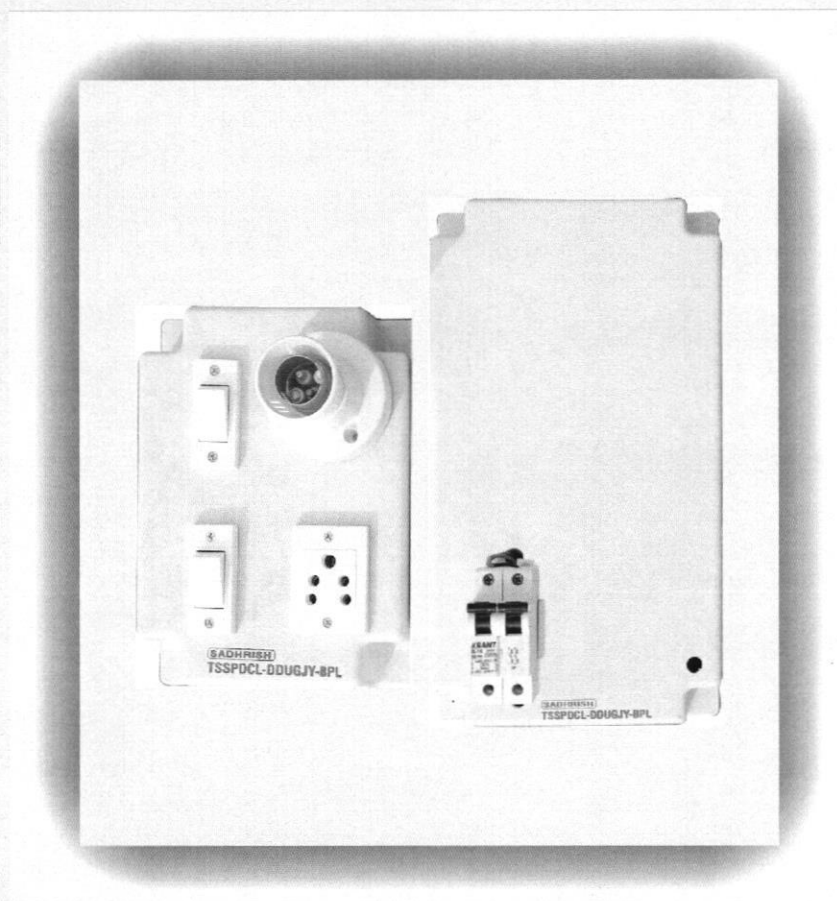

SMC Distribution Boxes

Range And Specifications		
Code No	Inside Dimensions	Applications
SRDB-3020	295 x 195 x 100	1 Phase/3 Phase service connection Distribution Box, Fuse Box
SRDB-4030	400 x 300 x 190	

- Good Corrosion and Weather Resistance
- High Physical and Mechanical Strength
- Economical & cost effective
- Light in Weight and hence easy to handle and install
- High Strength to weight ratio
- Highly Durable
- Easy of Maintenance with Zero Downtime

SMC Moulded Service Connection Boards

Range And Specifications		
Code No	Inside Dimensions	Applications
SR BPL-2515	250x150x40	1 Phase service Connection Board DP Switch , Lamp Holder , Switch ,MCB and Earth Terminal
SR BPL-3520	350x200x40	

- Rustproof and waterproof
- Maintenance free
- Consistent Quality and Timely Delivery
- Weatherproof and termite proof
- Withstand Solar radiation and Heavy rains
- Excellent Finish and Dimensional Consistency

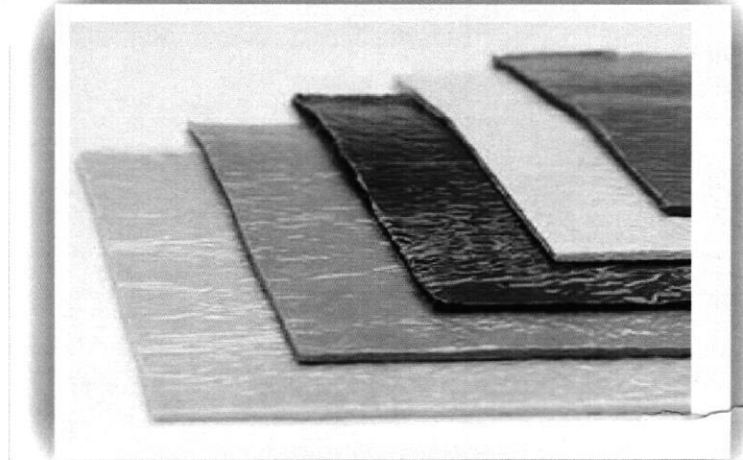

SMC Danger Notice Plates

DANGER
415 VOLTS
 स्वतः खतरा
 خطر
 ಅಪಾಯ
 ಅಪಾಯ
 ಅಪಾಯ

Range And Specifications		
Code No	Inside Dimensions	Applications
SR SH-2025	200 x 250	For 415 V / 11 KV LV and HV Installation
SR SH-1520	150 x 200	

- Rustproof
- Excellent Weather Resistance
- Excellent finish and dimensional consistency
- Maintenance free
- Withstand Solar radiation

SMC Sheet

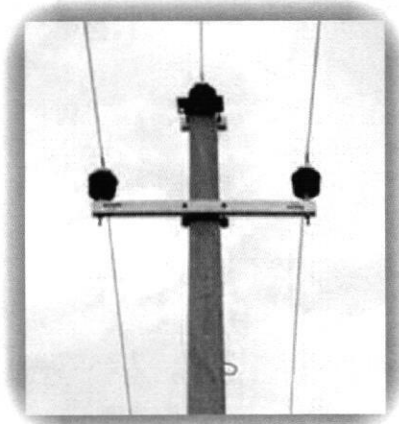

It is a new type of molding compound for a dry method to manufacture glass fiber reinforced polyester.

It uses multi-component of unsaturated polyester resin paste to impregnate the chopped glass fiber (or felt) and covers with polyethylene film to get the molding compound with sandwiched sheet.

SMC has various advantages. The operation of SMC is easy, molding time is short, the production efficiency is high, and it improves the processing environment and working conditions; the fluidity of forming is good, so that it can form the complex structure parts and large parts while keeping the good surface quality of the products.

FRP Straight Cross Arms (REC Design)

- Excellent Insulation
- Light weight and Strong

Range And Specifications

11 KV Cross Arm/Top Hamper

33 KV Cross Arm/Top Hamper

- Anti-corrosive
- Extremely Safe

FRP 'V' Type Arms (REC Design)

Range And Specifications

Code No	Description	Applications
SRXA-011-01	V Type cross arm	11 KV Lines 1 Phase/3 Phase
SRXA-011-01	Top Hamper	

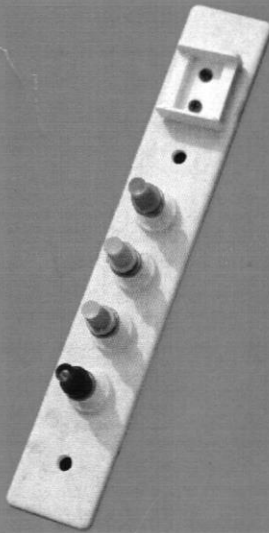

- Lightweight yet strong
- Extremely Safe
- Ideal for harsh weather conditions

- Maintenance free
- Anti Corrosive
