Figure 1 shows a series of nine line drawings arranged in a 3x3 grid, illustrating the development of a child's drawing of a person from age 3 to age 7. The drawings are labeled as follows:

- Top row: 3 years, 3 years, 4 years
- Middle row: 4 years, 4 years, 5 years
- Bottom row: 5 years, 6 years, 7 years

The drawings show a progression from simple, abstract shapes to more detailed representations of a human figure, including the emergence of a head, torso, and limbs.
