LIFE IS AN ADVENTURE. OURS STARTED IN 1817.

The Duravit brand stands for technological innovation, high product quality, and distinctive design. In 1987, Duravit AG in cooperation with Dieter Sieger launched the adventure of “conquering the bathroom by means of design”. Global success then followed in 1994 when Duravit started to work with the French designer Philippe Starck. For more than 25 years now, our innovative inimitable design has revolutionized the sanitaryware industry.

DESIGN AND SUSTAINABILITY

Today, everyone’s talking about environmental responsibility – a practice that Duravit has championed for years in its selection of materials, technological applications and production methods. Sustainability is the very reason Duravit continues to work with sanitary ceramic, a material that dates back to 8,000 BC. Today, the manufacture of Duravit sanitaryware ceramic continues to employ the same basic materials – clay, kaolin, feldspar and quartz – a set of natural, regenerative substances. Duravit’s corporate history has been characterized for decades by awareness of sustainable thought and action.

Valuable, sustainable, flawless: Every piece of Duravit's bathroom ceramics is an example of highest craftsmanship. A lot of manual labour and skills are required to give washbasins, toilets and bidets the degree of perfection that one is accustomed to Duravit products.

Duravit has been the proud recipient of numerous international design awards. These awards celebrate bold design, which has become Duravit’s hallmark over the years. Each designer is a specialist in his field – a prominent global innovator with an inherent sense for good design. Good design, as Duravit and its designers see it, is never at the expense of practicality – neither is interested in “design for design’s sake.” It is all about you, the bathroom user, and your own set of needs and requirements. Thanks to an ongoing dialogue with its trade partners and sanitaryware dealers, Duravit is best able to address these needs and requirements in the brand’s designs.

- 1 The wood grouse is the emblem of Duravit and therefore of premium quality.

2 Headquarters and Design Center: The company was founded almost 200 years ago in Hornberg where today's headquarter is located.

3 Showcase, Tarapur, India

All 12 production sites around the world:

Tarapur, India

Duravit India is the growing subsidiary of Duravit AG. With a strong heritage of 200 years and presence in 130 countries, Duravit is known for our association with world famous architects and product designers. Our knack of creating designer products coupled with the German passion for manufacturing high quality durable products using the latest technology has created a very unique brand perception for us worldwide.

The group manufactures and markets sanitary ceramics, bathroom furniture, baths and shower trays, wellness systems, shower-toilets, faucets and accessories as well as installation systems. The young Indian subsidiary has already earned the status of a recognized export house, with ISO 9001, ISO 14001 and ISO 50001 certifications . The Indian plant is one of the most modern state-of-the-art plants and has a workforce of 350 people in aggregate.

The company has already made an impact in India as a premium designer bathroom brand with presence in more than 75 luxury hotels and over 150 premium residential apartments. Having achieved a wide acceptance, the brand is present across 400 retailer showrooms in India. The company has deployed an after-sales service team across most parts of the country to help the buyers of Duravit products.

From tech inventions to design innovations, sustainability to environment stewardship, Duravit has become synonym for the luxury bathroom segment in India.

THE DURAVIT DESIGNERS

Duravit's designers are as diverse as its product ranges. Whether simple or extravagant – what unites them is their uniqueness.

WORLD OF DURAVIT. REFERENCES.

Where there's a bathroom, there's Duravit. Who isn't familiar with the blue wood grouse adorning so many washbasins, toilets and urinals in hotels, airports, public buildings and private homes? To the layman it stands for successful, attractive design – to the expert a bathroom styled by Duravit. Created by internationally renowned designers, manufactured with the utmost care and precision, Duravit products offer superb planning flexibility down to the very last detail. Perhaps that's why you'll find the blue wood grouse all over the world – on sanitary ceramics, and bathroom accessories that stand as a testament to a standard of design and quality that is anything but run-of-the-mill. This high standard – also held by architects, bathroom planners and users – is also reflected in the remarkable, unique architecture of the buildings we present to you in this brochure. They all have one thing in common: a bathroom styled by Duravit.

DuraStyle. New freedom in the bathroom. Individuality is important in everyday living. However, individuality does not mean making an impression with all means. Simply an ambience which reflects itself, gives your personality air to breathe and space to do your own thing. Such as DuraStyle: Designed by Matteo Thun & Antonio Rodriguez, the range of bathrooms is revealed as deliberately discreet – and blends harmoniously into practically any ambience for this very same reason. Two surface versions – light and dark – open up further options for individual bathroom design. Simply incomparable in its formal simplicity, DuraStyle succeeds with ease in underlining the personality of the bathroom user.

Design by Matteo Thun & Antonio Rodriguez

Washbowl, 600 x 380 mm,

DuraStyle

The innovative impression given continues with the shapes of the toilet and bidet: The flat lid/seat combination, available with and without a soft closing mechanism, is eye-catching. Toilet and bidet are available in wall-mounted, free-standing and back-to-wall versions, supplemented by a one/two-piece toilet. The wall-mounted toilets, available with a 48, 54 or 62 cm projection and with concealed or conventional fixation, are suitable for practically any domain of use and almost any architectural conditions.

Starck 3

The original knows no equal – and Starck 3 remains the measure of all things when it comes to design, variety and price. Offering better value for money than ever before – for a real Philippe Starck. With more than 50 models or 64 variants, Starck 3 is probably the most extensive bathroom range ever, suitable for the widest range of different uses, application areas and architectural settings, whether in the public, semipublic or private sphere.

Design by Philippe Starck

The key to elegance in the bathroom. Of course, good design isn't everything, but all the same a well designed object makes life more pleasant. Even more so if it is affordable. D-Code from Duravit is a new kind of bathroom range – complete from washbasin to towel rail, consistently designed throughout and with an excellent value. Its appearance is restrained, featuring rectangular forms with rounded edges – the classic washbasin shape, in fact, that does not impose itself but rather blends with its surroundings. This is what makes D-Code so timelessly modern – a hallmark of good design. With alternatives and solutions for all imaginable bathroom situations, D-Code is a bathroom range that many people have been waiting for.

Shower tray square, 900 x 900 mm, # 720102

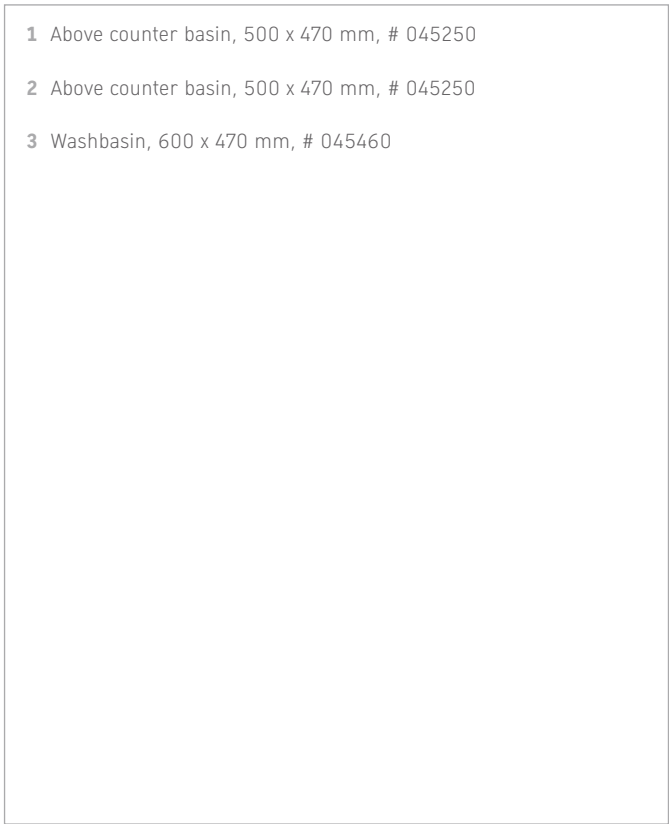

Consistently rectangular, consistently successful: the Vero range of ceramic is the archetype of minimalist form and a modern classic. Cinema screen or computer monitor, fridge or milk carton, a room, a table, this brochure: our world is inconceivable without the rectangle. Perhaps this is why we are so attracted to Vero: the forms of this ceramic range are entirely restricted to the rectangle. It's a restriction that gives rise to new possibilities: this is why Vero is one of the most versatile ceramic ranges of all time. With minimalist design at its core and the strong support of Duravit's ceramic tradition and expertise, Vero is impressive in terms of its form, function and quality.

Ketho

The start of a wonderful friendship. As modern life places greater demands upon us, we, in turn, also start to demand more. These demands also extend to the bathroom, which we expect to be attractive, inviting and also functional. Ketho takes this development into account: designed by Christian Werner, the new range of bathroom furniture is characterised by clear forms, well thought-out functionality and comfortable quality. The characteristic, ergonomic handles feature throughout the range and give Ketho its true originality. The reduced look of the range is flexible enough to suit any modern bathroom.

Design by Christian Werner

Triply height. The tall cabinet (shown here in Graphite Matt) is available in three different heights: 88 cm, 132 cm and 180 cm. Always in combination with Diamond Black interior.

True to the essence of the word “brioso”, the bathroom furniture range embodies contemporary bathroom design with sweeping casualness. Characteristic details are the precise, finely nuanced lines and the striking, ergonomically designed handle. At the same time, the design is sufficiently understated so it can be easily combined with a total of five Duravit ceramic ranges. This way, Brioso offers varied and customizable design options as well as excellent value for money.

Design by Christian Werner

2

1 2 x Above counter basins, 600 x 470 mm, # 235260
Console for above counter basin and countertop basin, 1800 x 550 mm, # UV 107C
2 x Brioso vanity units for console, 820 x 550 mm, # BR 5117
2 x Single lever basin mixer M, 175 mm, # C11020
2 x Mirrors with lighting, 620 x 45 mm, # BR 7001

2 Handrinse basin, furniture handrinse basin, 430 x 300 mm, # 072343
Vanity unit wall-mounted, 420 x 289 mm, # BR 4000 L/R

3 Washbasin, furniture washbasin, 830 x 490 mm, # 233683
Vanity unit wall-mounted, 820 x 479 mm, # BR 4002

Beautiful bathrooms, tone-in-tone: The Brioso bathroom furniture comes in 15 different finishes. The characteristic handles and furniture feet are available in the same tone as the front and cabinet surfaces – in seven different colors (matt or gloss), depending on the cabinet color. This allows for bathrooms with perfectly coordinated design and color schemes.

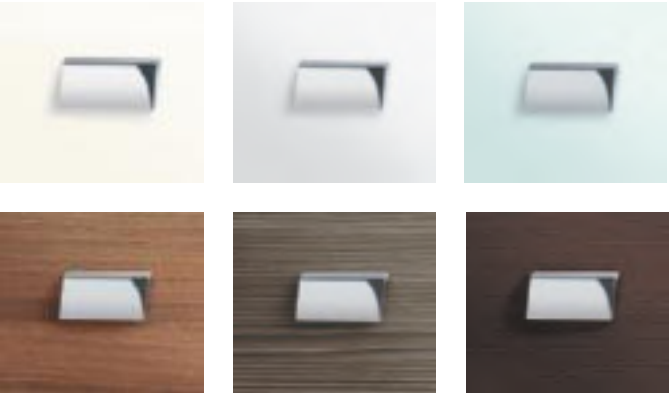

3

- 1/2** Semi tall cabinet individual,

Mirror cabinet, 1020 x 148 mm, # BR 7103
Semi-tall cabinet, 420 x 360 mm, # BR 1310 L

A more striking effect is achieved with the ergonomically-designed Brios handle in polished chrome that is characteristic of the range. It offers a sharp contrast in terms of both material and color, especially with strongly grained finishes such as Pine Terra or Walnut Dark. All 15 furniture finishes in the Brios range are available with a chrome handle and chrome feet.

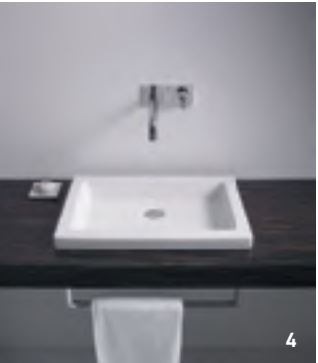

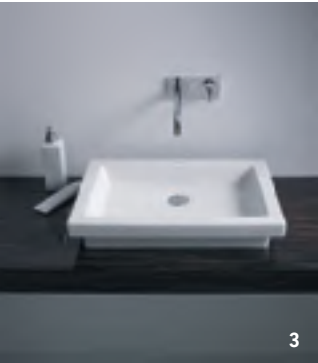

With the Bacino console washbasin, Duravit set a trend that continues unabated today. A small but attractive range, Bacino enables both modern and distinctive washing area solutions for private bathrooms, powder rooms and hotels. The attractive, space-saving and easy-care sanitaryware items allow plenty of scope for generous bathroom design, especially where space is at a premium. Naturally, all in trusted Duravit quality and at excellent value for money.

Washbowl Bathroom Foster,
495 x 350 mm, # 033550

Washbowl Bacino,
420 x 420 mm, # 033342

- 1 Washbowl Bacino, Ø 420 mm, # 032542
- 2 Undercounter basin Santosa, 510 x 375 mm, # 046651

- 5 Washbowl Bagnella, Ø 400 mm, # 045140

Washbowl Cape Cod,
480 x 480 mm, # 232848

The Cape Cod washbowl is like nothing you’ve seen before: high-quality, attractive porcelain, fine, extremely thin edges just 5 mm thick. This is made possible by the innovative material DuraCeram®: this results in outstanding elegance, without compromising on quality, robustness or ease of care. In order to allow scope for individual bathroom design, the bowl is available in three different formats: square, round and tri-oval. In the round and square versions, the tap fitting is located on a tap platform integrated in the basin.

With the new Rimless technology, the open design of the toilet rim enables an innovative and powerful flush that ensures perfect and hygienic flushing results, even with volumes as small as 4.5 litres. Thanks to an open, easily accessible rim area, the bowl is particularly easy to keep clean, reducing cleaning times considerably. Toilet models in the DuraStyle and Starck 3 series are available in the Duravit Rimless® option.

Duravit has a new and effective answer to the question of how to improve hygiene in toilets and urinals: HygieneGlaze. The innovative ceramic glaze is antibacterial: it effectively kills bacteria and germs. HygieneGlaze is not a surface coating. It is integrated into the ceramic glaze and then baked into the ceramic during firing, providing continuous protection with long-lasting effectiveness. Tests by the Institute for Hygiene and Public Health at the University of Bonn confirm that HygieneGlaze kills an almost unprecedented 99.9% of germs. Antibacterial, durable, safe: with HygieneGlaze Duravit defines a new standard in bathroom hygiene. HygieneGlaze is optionally available for the Architec #019009, for the toilets and urinals in the Darling New, DuraStyle, Happy D.2, ME by Starck, P3 Comforts and Starck 3 collections.

Of all the elements in a bathroom, the mirror is probably the one that gets looked at the most. That being so, our options for edging light at the side or top or indirect ambient light show the mirror in its best light, upgrading it to an attractive design element in both private and commercial bathrooms. Light output of over 300 lux, a pleasant light color of 4,000 kelvin.

1 4 sided ambient light

1200 x 33 mm, # LM 7828

The mirror variant with ambient light gives out pleasant, indirect light from all four sides, and the wall-wash effect creates an extraordinary, atmospheric lighting effect within the room. Because this variant does not directly illuminate the viewer, additional bathroom lighting such as downlights is required. Optimal mirror heating ensures that the surface of the mirror does not steam up.

- 1. The lighting works with a sensor switch, enabling it to be turned on and off with a simple motion of the hand. Available in the “Better” and “Best” design variants.
- 2. The integrated heating prevents the surface of the mirror from steaming up. This is the “Best” version of the ambient light model.
- 3. The LED washbasin lighting creates a pleasant light directly on the washbasin and is available for all mirror models in the “Best” design variant.

2 Double light field
