CERAMIC FASHION

CERAMIC | DURADIGI | DURACOTTURA

Innovative designs, unique textures, multiple sizes, unmatched quality, all centered around one thing – to adorn your world with natural beauty. Toughness included. Discover the exquisite range of Ceramic Floor Tiles from NITCO. Go on, floor the world.

THE WORLD OF NITCO

It all started with a belief, and a purpose - a belief that there's no such feat which cannot be achieved, and a purpose to deliver the world's best products and services. 6 decades later, we're one of the largest, and the only premium tile brand in India. And we're only getting started.

NITCO is the only company in the country to boast a state-of-the-art, fully-integrated, automated plant, with benchmark processing systems and the most advanced technology. We are also the only company with an automated sorting process. This ensures quality consistency with the least variations. Our plant houses the country's most advanced Lab, with skilled technicians, professionals and experts from across the globe, ensuring quality and standards par excellence.

But most importantly, our processes, systems and technology also offer one more extended feature - peace of mind. In an industry where minor defects and imperfections are a norm, we strive to offer quite the opposite. With NITCO you are assured minimum risk, and the best quality, at all times. A definitive proof of that comes in the goodwill we've created amidst the Architect and Dealer fraternity across India.

DESIGN ETHOS

The natural world offers a myriad of design possibilities. Each acts as a door, opening up a world of inspiration for us. From the most striking, to subtlest, our designs are a tribute to nature's artistic prowess. Which is why, we find ourselves on a never-ending quest to replicate the best of Nature in our tiles. We source natural products from around the world, dedicating our designs, technology, and manufacturing processes towards providing a closer-to-nature-look. It's more than a way of life for us. It's the ethos we live by, creating designs that make a fashion statement, designs that are natural, and designs that blend-in and reflect a mood.

All this is a product of curiosity. It's the questions we ask ourselves, and the constant feeling of 'enough is never enough' that pushes us to challenge our best, and deliver even better. And it is all brought to life through cutting-edge technology, superior processing systems, and a designer mindset that takes shape in the form of our product offerings – Tiles, Marble and Mosaics.

5	600 mm x 600 mm (24" x 24")	4	1.44	15.50	29.5

Abrasion Resistance Group

Group IV & IV+

Duradigi, Duracottura & Ceramic tiles are meant for medium and heavy abrasion areas like the living room, bedroom, verandah, terrace, balcony, offices, shops, boutiques, bars, restaurants, lobbies, health clubs, swimming pool decks, malls, multiplex, airports and all other residential and commercial premises.

Roto Color Technology

Roto color technology is an advanced printing technology, which is currently mainly used by European manufacturers of premium tiles. As the tile moves along the manufacturing line, large rollers paint and press different designs onto each tile. The gradual sideways pressing movement of the roller ensures that each and every tile has its own unique pattern and natural look. NITCO was the first Indian ceramic tile manufacturer to use this technology.

Eclat Finish

Eclat is a special type of finish which gives a lustrous effect where the design is depicted on the matte surface. Its application elevates the aesthetics of the design.

- Anti Skid
- Stain Resistant
- Scratch Resistant

NOTE : Certain amount of technical properties variation in batch to batch is inherent properties of Glazed Tiles. Please refer to Materials Test Certificate for actual technical properties

The reproduction of tiles in this catalogue is restricted to four colour printing only and tiles are not relative in sizes. Conforming to ISO requirements, technical specifications of NITCO tiles are applicable only for first grade / first quality tiles. Please inspect all tiles prior to installation. Company will not entertain complaints once tiles are laid / fixed. Price category & PEI grade may change without any notice. Customers are advised to confirm it before placing order.
